a: From 1984–2007, the size of the graduating class for first-professional degree programs is compared with enrollments in that class three years previous for B.S.Pharmacy degrees and four years previous for Pharm.D. degrees, i.e. the number of students awarded a first-professional degree in 2006–07 are compared to first professional degree enrollments for the class of 2007 in fall 2003. In 2008 new data were collected to capture attrition rates more accurately.
